# Cornwall & Plymouth Science Learning Partnership

The Cornwall & Plymouth Science Learning Partnership is part of the national network of STEM Learning partnerships across the UK. As a DfE initiative, we take a leading role in supporting schools to provide an engaging and inspiring education for their students. Catering for teachers, leaders and support staff, we offer bespoke and regional training to support you in ways that best meet your needs.

Our professional development offer is excellent quality and DfE approved. Always delivered by an accredited STEM facilitator, our training days focus on a blend of pedagogy and subject knowledge to ensure that your teaching is given the support it needs. Along with the other SLPs in the South we're here to support teachers and support staff to become more confident and helping them to teach more effectively in the classroom, improving outcomes for young people.

# SEND Remote Workshop Package

Virtual delivery

This series of workshops is designed to support teachers of SEND and teaching assistants to maximise impact and progression for SEND learners that they teach or support.

## The course

The programme introduces delegates to a range of practical strategies that they can take and use in their own settings for improving learning and progress of students with special educational needs. This course is suitable for teachers and teaching assistants from primary and secondary phases. Each session will cover a different topic delivered by Rob Butler who has over 20 years of teaching science in special schools. Topics include

- SEND Meeting the needs of all learners
- Teaching resources available to support learning
- Specific SEND needs part 1 – Autism & Moderate learning difficulties
- Specific SEND needs part 2 – Autism & Moderate learning difficulties

For further information or to enquire about funding please contact [slpswww@adfecto.org.uk](mailto:slpswww@adfecto.org.uk)

## KEY DETAILS:

6 MARCH  
17 APRIL  
21 MAY

4pm - 5pm

Fee - £120 + VAT

Teacher release payment = £60.00

Cost to school = £60.00

## Primary Science Support Package 23-24

This package has been designed to support all of the teachers in your school from ECT's to subject leaders. This term we are delivering CPD both remotely and face to face. We are also able to provide advice and guidance pertaining to the science curriculum and to signpost you to resources and other professional bodies who can help.

Further details and prices for the packages of CPD we offer are below. These packages all offer a teacher release payment for up to 70% of the cost of the package. Initially the school would pay the entire amount and 4 weeks after the start date they would receive up to 70% back via BACS

### Cornwall Primary Science Package 23-24

29 January 2024  
£600.00

# Leading Primary STEM Online Conference

Our primary conferences always provide outstanding learning opportunities linked to topical developments in primary science teaching alongside time to talk and share ideas with other primary practitioners.

## Key note Speaker: Tina Whittaker

National Consultant on primary science, Co-lead of Science across the City publications (Stoke on Trent), PSQM Regional Hub Leader, Focus4TAPS Advisor.

Tina is a leading figure within the primary science community. We are delighted that she is leading the key note session for us on *'Teaching children to build better scientific questions'*

**Date:** 7 February 2024

**Time:** 9.00am - 3.15pm

**Fee:** £120 with a TRP of 70% \*

\* This has a 70% TRP applicable reducing the cost from £120 to £38 per attendee for a full day CPD.

Please contact [sciencehub@adfecto.org.uk](mailto:sciencehub@adfecto.org.uk) for more details for accessing this discount before booking.

## STEM Ambassadors (primary and secondary)

STEM Ambassadors are adult volunteers that represent a spectrum of STEM professionals, students, apprentices, researchers and communicators. They are a valuable link between schools and industry, helping to bring STEM subjects alive and provide real-life examples of careers, and. They are an incredible resource for schools and colleges across the UK and can be requested, for free, to support any element of your STEM curriculum.

It's easy to [request a STEM Ambassador](#). Just create an account or sign in to your STEM Learning dashboard, select 'Advertise an activity', fill in the details and publish your activity. It will be seen by many hundreds of potential volunteers who can express an interest in volunteering with you, and you can communicate with them directly through the website.

The programme is managed by STEM Learning, and funded by UK Research & Innovation. There is a network of Delivery Partners who coordinate volunteering opportunities and can support you with your request for volunteers.
